DATES

July 10-12 2022

JANE POYNTER

Jane co-founded Space Perspective, a luxury carbon neutral space tourism company. She was a member of the Biosphere 2 design team and original crew who lived for two years inside the sealed, self-sustaining habitat, the first prototype space base built and operated. She then co-founded and was President of Paragon Space Development that today has technologies on almost every human spacecraft in operation in the US.

KAM GHAFARIAN

Kam Ghaffarian is co-founder of Axiom Space, the company that made history in April with Elon Musk's SpaceX when four private astronauts splashed safely down on Earth after completing the first fully private crewed mission aboard the International Space Station. Kam is a visionary space and energy entrepreneur behind several companies dedicated to furthering human civilization including nuclear energy company X-energy and space services company Intuitive Machines. Kam is building the world's first commercial space station.

ANTON BREVDE

Anton Brevde is Partner at Prime Movers Lab and a leading investor in the New Space Economy and helps lead the venture fund's space investing practice. Anton will help us explore the scale of what is possible in today's space economy and what is coming in the New Space economy that will allow for even more innovation, expansion, and exploration.
